

Permission Form

Sun protection

The predicted hot weather means that staff will be extra vigilant about sunscreen, the wearing of hats and that the children drink plenty of water.

Parents- please apply sunscreen to your child before the session starts – even on dull days the weather changes so quickly – also ensure that your child wears a tee-shirt which covers the shoulders.

Nursery staff will apply extra sun cream if they feel it is necessary or ask the child to cover up – please sign the permission slip which will enable staff to apply extra sunscreen.

Sunscreen should be factor 30 or above.

Thank you

Permission Form

Sun Cream factor 30 or above

Child's name-----

I give permission for nursery staff to apply sun cream to my child (sun cream to be in correct bottle with child's name on and given to nursery staff)
